Fritz Industries Coronavirus COVID-19 – Update

Our number one priority has been and will continue to be our commitment to our employee’s health and safety.

Handwashing is one of the best ways to protect yourself and your family from getting sick. Learn when and how you should wash your hands to stay healthy.

Everyone should clean your hands often.

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, **use a hand sanitizer that contains at least 60% alcohol**. Cover all surfaces of your hands and rub them together until they feel dry.
- **Avoid touching your eyes, nose, and mouth** with unwashed hands.

Key Times to Wash Hands:

You can help yourself and your loved ones stay healthy by washing your hands often, especially during these key times when you are likely to get and spread germs:

- **Before, during, and after** preparing food
- **Before** eating food
- **Before and after** caring for someone at home who is sick
- **Before and after** treating a cut or wound
- **After** using the toilet
- **After** changing diapers or cleaning up a child who has used the toilet
- **After** blowing your nose, coughing or sneezing
- **After** touching an animal, animal feed or animal waste
- **After** handling pet food or pet treats
- **After** touching garbage

During the COVID-19 pandemic, you should also clean your hands:

- After you have been in a public place and touched an item or surface that may be frequently touched by other people, such as door handles, tables, gas pumps, shopping carts or electronic cashier registers/screens, etc.
- Before touching your eyes, nose or mouth because that’s how germs enter our bodies.

Below is a link to an excellent video that shows how important it is to wash your hands often and properly. Please check it out. <https://youtu.be/-LKVUarhtvE>

Company Safety Policies

Please follow the Company’s safety policy including Company rules related to the use of personal protective equipment, including the use of gloves, eye and face protection, and respiratory protection. If you have any questions about the Company’s safety policies or the use of personal protective equipment, please contact Safety or HR.

The company reserves the right to revise any policies as it deems appropriate, in its sole discretion, and with or without advance written notice.
